The galleys which Kearney promised to erect during the week has not been built, nor has any account of the collection taken up for that purpose been rendered to the unemployed whose dimes helped to swell the amount. The Workingmen's Ward Presidents adopted a resolution repudiating all responsibility for the incendiary language which may have been used by members of the party.

The first Kindergarten, under the auspices of the Association for forming a system of free kindergartens in this city, which it was expected would open in the Spencer House on Broadway, near the Landing, this morning, was postponed until Wednesday morning, since the rooms were not ready for occupation.

These rooms, three in number, are situated in the southern part of the second floor, facing south, and have been newly painted and papered, and the Committee on Decoration are adorning them in a beautiful manner. As soon as the school becomes too large for these rooms, other rooms on the same floor will be fitted up and other teachers employed. At present, Miss Shawk, of St. Louis, will have charge of the school, and be assisted by four lady teachers.

The rent is nominal, and the rooms are easy of access. They occupy the most pleasant portion of the house and are perfectly safe for the little ones. ## Higher Prices for Wheat.

The break in rail freights to-day from Chicago to the seaboard, and the continued light receipts of wheat from the country, together with the large diminution in the visible supply, and the increased export demand, are among the reasons we have for again advising our friends to purchase wheat for April delivery. We do not hesitate in predicting a quick profit.
